The Official Employee Newsletter of Drs. Goodman & Partridge, OB/GYN

Volume 6, Edition 7, Issue 2

Conversation Friday!!

During the entire month of July 2010, employees of Drs. Goodman & Partridge, OB/GYN are celebrating their independence from email and texting by refraining from these two methods of communication every Friday in July! Emails or texts can be misinterpreted and sometimes it is just easier to pick up the phone or walk down the hallway to talk to someone. We are excited with how this is going so far and pleased you have agreed to join us in our resolve to improve our communication! Thank you for your support!

Two wildly enthusiastic thumbs up!

Aren't these t-shirts awesome?!

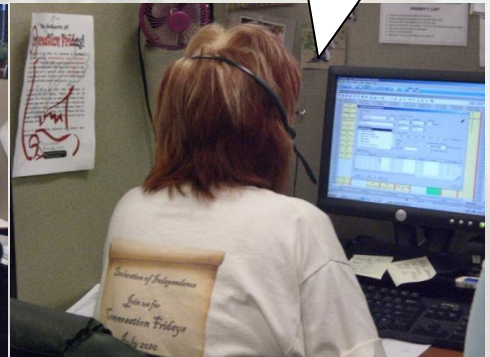

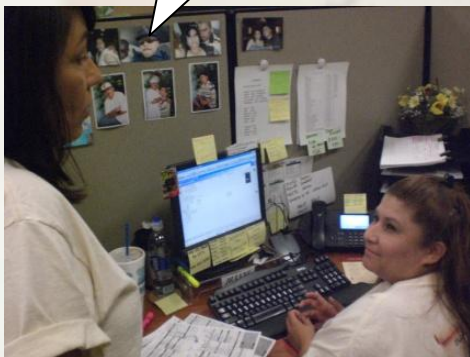

It is great to see you!

...and that is why I love **Conversation Friday!**

It is a pleasure to speak with you!

Conversation Friday caught the attention of the Media!! CBS 5 News did a story about us that aired last Friday, July 9th at 5:30 pm. They came last week with their cameras and took videos of our Business Office Employees hard at work. It was a brief spot, but we were excited to share with the viewers our great experiences with **Conversation Friday**. Feeling a little too tied to your computer? Join us for **Conversation Friday!!**

Something's up at the Mercy Gilbert Office!

What in the world is going on at the Mercy Gilbert Office?! Dr. Grayson Guzman joined the great team of providers at the Mercy Gilbert Office and someone decided to welcome him in style!! Since he is the only male provider there, he was left a "welcome home" present... His desk was wrapped in blue wrapping paper and littered with confetti! Who was the mastermind behind such an attack?!

Looks like someone thought it might have been the female doctors in the office, because the very next day the women were hit! Dr. Laurie Allen, Dr. Laura Baum and Dr. Jennifer Cox walked in to find streamers and posters and confetti and candy all over their desks... Dr. Natasha Laird is conspicuously absent from the photon the right... Wait... could *she* have been the culprit?!! Hmmm... We may never know!
