July 30, 2010

Volume 6, Edition 7, Issue 3

## New Provider!!

We are excited to announce that **Timesha Delk, PA** will be starting with the Practice on Monday, August 23, 2010! Timesha graduates from AT Still University with her Masters in Physician Assistant Studies on August 7<sup>th</sup>. Timesha will graduate with another future G&P provider, Nicola Arnott, PA! The graduation ceremony is at 1 pm and it will be at the Phoenix Convention Center. All are welcome to come and cheer on Timesha and Nicola!

Timesha is so excited to be staying in sunny Arizona! She hails from Michigan and moved to Arizona two years ago when she started school at ATSU. Timesha had initially planned to move back to Michigan after graduation, but once she saw how warm, friendly and happy the people of Arizona are, she decided she never wanted to leave! We have made yet another convert! Timesha wanted to be in health care since she was about 8 years old. After weighing the options, she decided to become a Physician Assistant. She loves the interaction with patients and feels lucky to be able to help them in any way she can. Timesha absolutely loves Women's Health! She wanted to specialize in an area where she could really relate to her patients and feel like she is helping them live better.

Timesha volunteers at the Betty Ballard Lighthouse Women's Resource Center. They reach out to women in need of assistance... whatever that need may be. They help women facing problems with employment, education, childcare, divorce, poverty, health and domestic violence. The Center is hosting a community baby shower in September, and Timesha is excited about being involved with it.

When Timesha is not studying or volunteering, she enjoys spending time with her sweetie pie hubby Chad Delk. They have been married for nearly a year. They met in Michigan, and when he realized he couldn't live without her, he proposed to her at church! He was in the choir and as he walked up to the microphone, Timesha thought he was going to sing or play a solo on his saxophone... He asked her to join him on stage, where he got down on one knee and popped the question in front of the entire congregation! And the rest, as they say, is history! Chad and Timesha have two dogs, both dachshund/Chihuahua mixes, named Oreo and Toby. Timesha has played the saxophone, flute, French horn, piano, and she sings! She loves to dance, read and spend time with her "adopted" church family.

Welcome aboard, Timesha!! We are excited to have you join us!!

## Last Day of Conversation Friday!

Thank you all for your participation in Conversation Friday! We are glad that so many of you chose to participate in our efforts to improve our communication with our coworkers. One employee said that it helped him to realize what parts of the job can be done in better ways. Another employee shared that it has helped her communicate better with people in her personal life.

As Conversation Friday draws to a close, let's all remember the lessons we learned that make our jobs better and our relationships stronger. Happy Independence Month!! ☺
